OBJECTIVES

Ambitious Full Stack Developer with a strong interest in Cybersecurity, combining web development expertise with foundational knowledge of networking, Linux administration, and information security. Skilled in building modern web applications using PHP, Laravel, JavaScript, and MySQL while emphasizing secure coding practices and system protection. Eager to leverage technical skills, continuous learning, and problem-solving abilities to contribute to impactful projects and advance in both software development and cybersecurity domains.

PROFESSIONAL EXPERIENCE

Cybersecurity Trainee | National Telecommunication Institute (NTI)

Jul 2026 – Aug 2026

- Successfully completed an intensive CCNA Security training program at the National Telecommunication Institute (NTI).
- Gained practical knowledge of network security, secure network design, access control, firewall concepts, VPN technologies, common cybersecurity threats, and security best practices.
- Strengthened hands-on skills in securing network infrastructure, identifying common security risks, and implementing fundamental cybersecurity concepts.

Linux System Administration Trainee | Mahara-Tech

Online Training

- Successfully completed online training in Linux System Administration.
- Acquired practical experience in Linux installation, file systems, user and group management, permissions, process management, package management, shell scripting, networking fundamentals, and system services.
- Developed strong command-line, troubleshooting, and server administration skills in Linux environments.

Full Stack Development Trainee | Information Technology Institute (ITI)

Jul 2026 – Aug 2026

- Completed intensive hands-on training in Full Stack Web Development, covering PHP, Laravel, JavaScript, Bootstrap, MySQL, Git/GitHub, and modern web development practices.
- Developed and deployed real-world web applications, including a Cafeteria Management System, an Online Ordering Platform, and a LinkedIn-inspired professional networking platform ("Shoghlana").
- Collaborated throughout the software development lifecycle, including requirements analysis, database design, backend development, API integration, and responsive user interface implementation.
- Applied secure coding principles, authentication and authorization mechanisms, and web security best practices to improve application reliability and mitigate common vulnerabilities.

Educational Center Management System – UI/UX Designer

Figma

- Designed the complete UI/UX for an educational center management platform.
- Created dashboards for students, teachers, assistants, attendance, courses, and finance management.
- Built a consistent design system and high-fidelity interactive prototypes following modern SaaS design principles.

EDUCATION

Delta Technological University

Bachelor of Technology in Information Technology (IT) 2023/2027

CERTIFICATIONS

- **CompTIA A+ Training (Online)**
 - **CCNA (Cisco Certified Network Associate)** – Cisco Networking Academy
 - **CCNA Security** – Cisco Networking Academy
 - **CCNA Security Training** – National Telecommunication Institute (NTI)
 - **Full Stack PHP Development Training** – National Telecommunication Institute (NTI)
 - **Linux System Administration** – Mahara-Tech
 - **Linux Fundamentals** – Coursera
 - **Python Programming, C++, and Java** – Mahara-Tech
 - **Introduction to Computer Networks** – WE (Telecom Egypt)
 - **Introduction to Computer Networks** – Banque Misr Training Program
-

PROJECTS

[View All Projects](#)

Educational Center Management System – UI/UX Designer

- Designed the complete UI/UX for an educational center management platform.
- Created admin dashboard screens for managing students, teachers, assistants, attendance, courses, and financial operations.
- Built a consistent design system, interactive prototypes, and responsive interfaces to enhance user experience and administrative efficiency.
- Produced high-fidelity designs in Figma following modern dashboard and SaaS design principles.

SKILLS

- Front-End: HTML5, CSS3, JavaScript, Bootstrap, Responsive Web Design.
 - Back-End: PHP, Laravel, MVC Architecture, Authentication & Authorization.
 - Database: MySQL, SQL, Database Design & Management.
 - Tools: Git, GitHub, VS Code, XAMPP.
 - Development Practices: CRUD Operations, RESTful Applications, Version Control, Debugging.
 - Soft Skills: Problem Solving, Communication, Teamwork, Time Management.
 - Languages: Arabic (Native), English (B1).
-

Volunteering

- Google Developer Groups (GDG) Community Member | 2025 – Present
- Participated in technical events, workshops, and developer-focused sessions covering software development and emerging technologies.
- Engaged with the developer community, collaborating on knowledge-sharing activities and professional networking opportunities.
- Enhanced technical and communication skills through active involvement in community-driven initiatives and events.
